

# Powr-Flite<sup>®</sup>

## Battery Operated Burnisher

### ***Superior run time with proven reliability in a battery burnisher!***

The new Powr-Flite battery-operated burnisher provides a smooth, even finish. The powerful 2.5 hp direct drive motor, with circuit breaker protection, provides a full 2000 RPM for superior gloss performance. The fully adjustable pad pressure lets you decide the pressure you need for optimum performance. Dust is easily contained in the paper bag – no more dust mopping after burnishing! The folding handle adjusts for variable operator height and folds for transport or storage.

- ***21 inch pad diameter***
- ***Fully adjustable pad pressure with meter***
- ***2.5 hp direct drive motor***
- ***Floating pad for full floor-to-pad contact***
- ***Dust control vacuum system***
- ***Adjustable handle heights***
- ***3-4 hour run time with 36 volts***

Control panel with battery, pad pressure and motor status meters.

Built-in dust control system with replaceable paper vacuum bags.

The B2000 uses 3 12-volt batteries with an average run time of 3-4 hours.  
Recommended batteries: Trojan J185HC  
U.S. Battery US-185 HC Interstate U-185HC

Easy accessible pad changing.

Model B2001 SPECIFICATIONS	
<b>Pad Speed</b>	2000 RPM
<b>Pad Diameter</b>	21 inches full pad-to-floor contact
<b>Pad Pressure</b>	Fully adjustable with meter
<b>Motor</b>	2.5 hp
<b>Transmission</b>	Direct drive
<b>Batteries</b>	36 volt – 3 - 12 volt, 215 AH
<b>Base Housing</b>	Polyethylene impact resistant
<b>Hood Housing</b>	Polyethylene impact resistant, removable
<b>Pad Driver</b>	Flexible, total 20" floor-to-pad contact
<b>Pad Pressure (lbs.)</b>	35-40 lbs
<b>Handle Grips</b>	Spring loaded, twist type, engages pad rotation
<b>Handle Tube</b>	All steel (adjustable)
<b>Operating Wheels</b>	Non-marking, 8" easy rolling
<b>Wiring</b>	All completely enclosed in housing
<b>Switch Housing</b>	Non conductive- commercial grade
<b>Operation Control</b>	Twist handle and master switch
<b>Warranty</b>	10 yr housing, 2 yr motor, 1 yr parts
<b>Work Rating (ft<sup>2</sup> / hr)</b>	25,000
<b>Weight</b>	140 lbs. (515 lbs. w/batteries)
